

Tamim Islam

Mirpur, Dhaka-1216, Bangladesh

+8801823507219 | nottamimislam@gmail.com | [Linkedin](#) | [Github](#) | <https://tamimislam.vercel.app/>

SKILLS

- **Frontend Development:** Proficient in HTML5, CSS3, JavaScript (ES6+), and React.js for building responsive and interactive user interfaces. Experienced with Tailwind CSS and Bootstrap for styling and layout.
- **Backend Development:** Expert in Django for building robust, scalable server-side applications with Python. Experienced in creating RESTful APIs, handling authentication, and implementing server-side rendering using Django's Model-View-Template architecture.
- **Database Management:** Competent in MongoDB for designing and querying NoSQL databases. Familiar with Mongoose for object data modeling.
- **Version Control:** Experienced with Git and GitHub for collaborative development and code versioning.
- **Additional Skills:** Understanding of JWT for authentication, knowledge of deployment on platforms like Vercel or Render, and familiarity with Agile development practices.

EDUCATION

Bangladesh University of Business and Technology (BUBT)

Bachelor of Science in Computer Science and Engineering

January 2024 - Present

Cumulative GPA: 3.72/ 4.0

Relevant Coursework: Programming (C/C++), Data Structures, Algorithms, Database Systems, Computer Organization

PROJECTS

HomeSnap, Personal Project

January 2025 – Present

- Developed a home services booking platform for plumbing, cleaning, and more.
- Built RESTful APIs with Django REST Framework and managed data with Supabase.
- Integrated SSLCommerz for secure payment processing and Djoser for authentication.
- Used Cloudinary for image management; designed client and admin dashboards.
- Built the frontend using React and styled with Tailwind CSS.
- [Live Site](#) | [GitHub](#)

EventPro, Personal Project

December 2024 – February 2025

- Created a full-stack event management website with user authentication and RSVP system.
- Followed Django's MVT pattern to structure backend logic and manage user roles.
- Designed and implemented dashboards for admin, organizers, and clients.
- Styled the frontend with Tailwind CSS and deployed using Render.
- Integrated PostgreSQL for database management and secure data handling.
